- Marble / Granite
- Sandstone / Slate
- Terracotta / Quarry Tiles
- Brick / Paving
- Grime Remover
- Interior / Exterior

DESCRIPTION

Intensive cleaner, effective for removing oil, grease, ingrained dirt, grime and old wax layers. Ideal for intensive stone care and for renovating heavily soiled floors.

ROCATEX Tile & Stone Renovator will remove the most stubborn stains and existing layers of sealant from floors and tiles. It is also suitable for use on exterior driveways, patios and paths.

DIRECTIONS

Important: Test the solution on an inconspicuous area before general application. Mask and protect painted surfaces, untreated wood and other sensitive areas. Rinse off overspray. Any alkalinity remaining on surfaces treated with this product should be completely neutralised. This may be done with a little clean water applied by sponge.

In mild cases and on absorbent tiles: Dilute one part ROCATEX Tile & Stone Renovator in 10 parts warm water. Apply with a cloth or mop. Wipe off thoroughly with a clean damp cloth.

In more severe cases: Dilute one part ROCATEX Tile & Stone Renovator in 3 parts warm water. Apply liberally, spreading over surface of tiles. If necessary agitate with a scrubbing brush. Leave to react for 5-10 minutes, keeping wet with additional solution. Agitate surface again, mop up and rinse thoroughly with clean water. Contains: <5% non-ionic surfactants, phosphates.

In extremely severe cases: Use undiluted and agitate with scrubbing brush or mechanical scrubber if necessary. Neutralise treated surface with clean water after use.

PLEASE NOTE

This product should not be used for every day cleaning of floors or walls that have been sealed. Cleaned surfaces that have been previously sealed should be re-sealed after using this product. This should be done after rinsing with plenty of clean water and once surfaces have had sufficient time to thoroughly dry (min 24hrs).
